

Need a Good Mexican Partner?

WHY NOT PICK US?

Mexpress

T R A N S P O R T A T I O N , I N C.

Over the years, Mexpress Transportation's account base has been the International Freight Forwarders and various airlines. We are now looking for domestic LTL and FTL carriers to partner with, that are interested in entering the fast growing Mexican market place!

Mexpress Transportation provides an INBOND LTL AND FTL truck service to and from the U.S. and 14 airports in Mexico. Our Road Feeder Service permits Mexican Customs clearance, import or export, to be done at each airport facility, eliminating the border clearance process entirely.

Mexpress Road Feeder Service uses your documents to move cargo thus allowing your Company to BRAND this as your own service offering. Each of the airports are staffed with our very own Mexpress employees, which means your company does not have to add any infrastructure in Mexico to be able to offer your clients this service. Mexpress will act as your agent at no additional cost to your company.

Mexpress has overcome the border clearance process and the issues associated at the border such as delays, re-handling fees, loss of shipment visibility and the extensive follow-up to see if cargo has cleared customs. Thru MEXTRAK, our online tracking system, you can track cargo until arrival at destination in your own systems!

Please contact us for additional information on how you can start providing your clients, consistent, reliable and on-time service to and from Mexico without adding additional infrastructure cost to your company.
